

Single Pod EPC

The Single Pod EPC is a highly secure, temporary space for living, working, or storage, in remote, austere and demanding environments and it can be easily assembled on location. Each Pod can be delivered assembled or in a stacked configuration to save space.

The Single Pod EPC is completely customizable and can be ordered with any door configuration or locking mechanisms, power outlets, network or phone connections, etc. based on the user requirements.

When fully assembled, the Single Pod EPC dimensions are 7'd x 8'w x 8'h. Interior dimensions are 6'3"d x 7'2"w x 7'h. Units come pre-mounted on 4X4 skids to support movement by forklift after assembly.

The single Pod EPC can also be equipped with a mobility/alignment system consisting of externally mounted removable wheels for easy alignment, movement, or leveling on most surfaces. Units require no site preparation and

are suitable for use outside in demanding tropical or temperate climates or for interior setup, such as inside a warehouse or aircraft hangar.

Exterior and interior surfaces each Pod are finished with a non-toxic, durable, fire retardant, permanent polyurethane protective surface coating (**color choices available**), which provides slip resistance as well as a barrier against mold, mildew, water, chemicals, temperature and years of use. A Single Pod EPC can be ordered in a bathroom configuration with a drain for hook up to facility plumbing or drainage in an austere environment.

Designed for rapid delivery and mission support via the standard 108" x 88" air cargo pallet system, one disassembled Single Pod weighs 1400 lbs and stands 45" high in a stacked configuration on a standard pallet. **Two Single Pods with HVACs, breaker boxes, duct work, and toolboxes fit easily on each 463L pallet.**

Comes Standard with an HVAC – a mobile, dolly mounted air conditioning and heating unit with a 30,000 BTU 110v, 30 amp CFM 630 system. Features powder coated frame. **Cools to 40 degrees and heats to 90 degrees.**

Common uses:
 Bathroom
 Office
 Billeting
 Storage
